

STÖNEBLØX

Let's read and build! Welcome into Minecraft!

Objectif linguistique lexical : enrichir son vocabulaire (description, localisation)

Activité langagière : compréhension écrite.

Read the text twice, focus on the words you understand, look up all the words you don't .

Imagine the environment while reading.

Then create a scenery based on this description with the help of Minecraft.

In this forest full of oaks and birch trees is a very small stone shack. Its wooden roof, its door and its unique window are perfectly blending into the scenery. The path around the house is decorated with a few daisies. An enclosure contains two pigs and a chicken. A sign indicates : "Welcome into Minecraft".
